SUMMARY

Full stack Developer skilled in crafting websites and applications using React, Next, JavaScript, TypeScript, Express and MongoDB. Excellent Frontend and growing Back end skills. Seeking relevant opportunities based in London or remote.

PROFESSIONAL EXPERIENCE

Web Developer

Techeo

March 2020 - Present

As a freelance Web Developer, I specialise in creating beautiful and impressive websites that leave clients proud of their online presence.

- **Frontend Development:** Strong command of HTML, CSS, and JavaScript enabling me to build beautiful, highly functional and performant websites.
- **Content Management Systems:** Very familiar with open source WordPress, WooCommerce and more, producing websites with excellent SEO and eCommerce results.
- **Hosting and Domain Management:** Configuration of Cloud VPS systems for optimised hosting and utilisation of CDNs such as Cloudflare for enhanced performance and security.
- **Project Work:** To view a sample of my work please visit: <https://techeo.co.uk/projects>

Front end Web Developer

Lyle & Scott

May 2019 - Feb 2020

As a Front end Developer on the eCommerce team, I worked closely with the design and marketing team to implement homepage updates, landing pages and regular adjustments to the website, as well as mass marketing emails.

- **Front end Web Development:** Implemented designs from the marketing team using HTML, CSS and JavaScript. The website was highly trafficked and typically performed very well financially.
- **Salesforce Commerce Cloud Administration:** updated content slots, scheduled content to go live and replicated changes from staging to the live site.
- **Mass Email Marketing:** built marketing emails, created segments, lists and workflows to regularly go out to a database of around 1 million.
- **eCommerce:** Participated in and held regular meetings to discuss strategies, aesthetic concerns with the website to enhance sales performance and customer satisfaction.
