SUMMARY

Full Stack Developer based in London, skilled at crafting websites and applications using React, Next, JavaScript, TypeScript, Express and MongoDB. Very capable of learning new skills fast and happy to work in any environment.

My greatest strengths are in Front End. I have good commercial experience in this area, with a keen interest to expand my skillset in a diverse range of technologies.

SKILLS

- Strong experience with JavaScript. Familiar with TypeScript, Python and PHP.
- Proficient with CSS, SCSS, MaterialUI, Bootstrap and Tailwind. Familiar with design tools such as Figma, Adobe XD, Canva and Adobe Photoshop.
- React and Next.js with good skills in this area. Clear understanding of state management libraries (e.g. Redux).
- Familiarity with Express, MongoDB and testing libraries such as Jest, Cypress & Supertest.
- Linux VPS systems, able to configure cloud based web servers using Nginx and similar. also using Cloudflare for performance and security.

PROFESSIONAL EXPERIENCE

Web Developer

Techeo

March 2020 - Present

As a freelance Web Developer, I specialise in creating beautiful and impressive websites and web applications that leave clients proud of their online presence.

- Strong command of HTML, CSS, and JavaScript enabling me to build beautiful, highly functional and performant websites.
- Very familiar with open source WordPress, WooCommerce and more, producing websites with excellent SEO and eCommerce results.
- Configuration of Cloud VPS systems for optimised hosting and utilisation of CDNs such as Cloudflare for enhanced performance and security.
- **Example Project Work:**
 - Job board for a well-established recruitment agency & property services business.
 - Sizeable WooCommerce store for the UK's best known dog behaviourist Stan Rawlinson.
 - Portfolio for the Landscape Architects behind the London Olympic Stadium gardens.

Front end Web Developer

Lyle & Scott

May 2019 - Feb 2020

Frontend Developer on the eCommerce team of a 150+ year old premium fashion brand.

Frontend Web Development: Implemented designs on a Salesforce Commerce Cloud CMS using HTML, CSS and JavaScript.

Received briefs on new marketing campaigns with designs made in Adobe XD, where under tight deadlines, I produced high quality code within campaign start-dates.

The website was highly trafficked and typically performed very well financially, often exceeding £500,000 revenue per week during my time there.

Mass Email Marketing: built HTML marketing emails, created segments, lists and workflows to regularly go out to a database of around 1million. Email marketing campaigns often exceeded £100,000 revenue per week during sale periods.

eCommerce: Participated in regular meetings to discuss strategies, aesthetic concerns with the website with aim to enhance sales performance and customer satisfaction.

PROJECTS

- **Blogz:** A social network application built with the MERN stack. Username and pass - demo
Demo: <https://blogz.dev>
GitHub: <https://github.com/adamrichardturner/blogz>
- **ReactNews:** Front end focused Next.js app utilising the GNews API.
Demo: <https://reactnews.app>
GitHub: <https://github.com/adamrichardturner/reactnews>
- **Techeo Portfolio:** A collection of my recent WordPress focused freelance projects.
